

## Should pay attention to the details of the Auto Carpet cleaning

Source from: <http://www.cn574.com>

The easiest to be dirty in the car is the carpets. If you use a vacuum cleaner brush head for cleaning processing can make more dirty carpet looks not so dirty. For some more dirty [korean mink blanket](#) , you can only use a special detergent. [newborn baby blanket](#) Is generally carried out using the above-mentioned detergent dust before work and then spraying the right amount of detergent, using a clean scrub brush, and finally a clean rag and detergent siphoning off the excess on it. [hand woven carpets](#)

Most in need of attention is: we should not be placed in water for carpet washing, carpet on the one hand will destroy the bonding within the layers of different materials, on the other hand, the carpet will dry in a very long time does not affect the use of results, caused by car wet.

Removal of blood if the blood-stained carpet, do not use soap or hot water removed, the blood will be a hit soap or hot water coagulation, it may wipe with wet cloth, and a few drops of ammonia in the blood at a few minutes and then dipped in cold water using a clean cloth to wipe.

Stain removal of tomato sauce in the car to eat foods such as sauce, such as when accidentally contaminated the carpet, or lipstick stain on the carpet and seats printed on the cold wet cloth to wipe can be used, or sponge lightly erase, and then foam detergent, do not use soap or hot water wash wipe. In addition, no soap or hot water wash can use coffee, cola, ice cream and other stains left behind, traces of soap and hot water will be fixed on the seat surface, first wipe with rag soaked on the cold water, and then clean foam cleaner.

will be covered in the wet rag soaked in places, after a few minutes away rag, and then wet wipe.

Handling vomitus is a nasty thing, but it must as soon as possible. This happens, it should be first used paper towels to dry vomit water, and then remove solid material, and then wipe it again warm soap and flooding rag, and finally soda solution to wipe clean and can be soaked rag.

Tangtangshuishui class a lot of people are used to clear the way to work to buy breakfast, on the road, the car to solve out porridge, soybean milk and steamed pork dumplings ... .. will inevitably spill some Tangtangshuishui, spots in the car seat. Cleaning can not afford to, then try using a little vinegar water to scrub, and then re-use wet cloth to wipe clean, everything can be restored to their original had.
